	Document Brief
	This document serves as an estimate for the creation of a mobile app for AOPA that will allow its members to research and book amenities and necessities for their travel destinations.
TO CLIENT / FUNDING BODY / PRO BONO	Project Description
BODY / PRO BONO	For this project I will build a mobile app which will consist of 4 main categories; transportation, dining, lodging and entertainment. Users will be able to choose a category and input their airport destination and will be given a list of links for the corresponding category in the area of their destination. If time allows the app will include additional features such as a saved 'Favourites' folder, Review and ranking options and offered suggestions based on the best rating. As well as the option for in app booking.
FROM Kaylee Gelz	Timeline
	Launch date: April 30, 2020.
	Risk Assessment
	Risk assessment identifies areas of concern in a project. Though I offer line item estimates for tasks, areas of risk are flagged for possible budget increases and timeline changes.
	<u>Core Logic</u> All custom work with this level of complexity is an area of risk, as it represents unknowns on many levels. At the start of work, as far as possible, the complete logic flow for the system will be mapped out. Any omissions, special cases, or later changes will likely impact subsequent work.

Pricing and Scope of Work   The standard rate for design, site development, implementation and maintenance work is \$XX per hour, and time assigned to the tasks delineated below reflect all time involved in the developer's completion of the task, including meetings, coordination, communications and development time. Rates are subject to change and are normally adjusted yearly. The client will always be notified of the relevant rates and hourly estimates prior to commencing work on a given task. When an overage of more than 25% will occur for a task, WEB will first obtain approval from the client before proceeding.   The tasks detailed below constitute the scope of work. Additions or notifications to the scope of work will incur additional expense and require additional time.   Ownership   The work product within the scope of this project will consist of the customization of existing software and the creation of new software for use by the client, as well as template code and custom configuration for the chosen platform. CLIENT will retain ownership of the software that is created and customized. In addition, WEB hareby grants to CLIENT a worldwide, perpetual, non-transferable, royalty free and fully paid up license to use the software it creates and customized. In addition, WEB hareby grants to CLIENT a worldwide, perpetual, non-transferable, royalty free and fully paid up license to use the software and will not be billed against as payment for costs until the project has reached 75% completion.   WEB requires a 25% deposit on this contract cost prior to commencing work. This deposit is retained to service cash flow needs, and will not be billed against as payment for costs until the project has reached 75% completion.   WEB will bill twice monthity throughout the life of the project. Invoice
